STUDENT FINANCIAL AWARDS
2024-2025
Philosophy of SD42 Selection Committees
Scholarship / Bursary / Award

BOARD POLICY: SD 42 POLICY: 4435

The Board of Education (“Board”) encourages students to pursue school programs to stimulate their levels of thought, productivity and citizenship. All student scholarships, bursaries and awards presented in the School District shall be granted strictly on the merits of the recipient and criteria determined by the donor/organization of the award.

The Board is appreciative of the community support given to students and encourages members of the public and community organizations to support the students of the School District by donating funds for scholarships, bursaries and awards.

In keeping with the Board’s policy, it has been the approach of the selection committees, both District and school based, to recognize as many of the outstanding accomplishments of as many students from SD42 that meet the criteria set out in the award description. As such, in cases where a student may meet the criteria of a number of awards, prior to awarding multiple awards to a single student, the selection committees will ensure that all applicants demonstrating outstanding accomplishment in meeting the criteria are considered. In this way, we are able to recognize as many of the outstanding students in our district as possible. However, if the accomplishments of a student are of such an outstanding nature as to set them significantly apart from all other’s in meeting the criteria then the committees shall award accordingly. It is important to recognize as many of our outstanding students as possible.

INTRODUCTION:

A number of types of financial assistance are available to students for post-secondary education and/or training:
